

April 8, 2005

Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
445 12th Street, SW
Washington, DC 20554

Re: **Docket No. MB 04-233**

Ms. Dortch:

To enhance the record in the above captioned proceeding, the Association of Public Television Stations hereby submits slides from presentations made on January 12, 2005 at the New America Foundation's half-day conference, "Envisioning the Future of Digital Public Service Media." The attached slides demonstrate some of the innovative projects and plans that local public television stations are implementing to serve the public interest in their communities with their new digital television capabilities.

Sincerely,

/s/ Lonna M. Thompson
Vice President & General Counsel
